RESIDHYDROTREAT 2019 EVENT HIGHLIGHTS

Kuwait National Petroleum Company (KNPC) and Kuwait Integrated Petroleum Industries Company (KIPIC) hosted the second international symposium on residue hydrotreating – ResidHydroTreat 2019 from 19th to 21st November in Kuwait. The symposium was inaugurated by Mr Hashem S Hashem, CEO, KPC and Mr Waleed Al-Bader, CEO, KNPC

Jointly organised by KNPC and KIPIC, the high-level symposium brought the world's leading licensors, catalyst manufacturers and other vendors together with regional and international refiners to discuss and share the latest advances, future trends, best practices and troubleshooting experiences in residue hydrotreating.

The Symposium discussed the IMO regulations and highlighted the importance of ARDS process in upgrading heavy petroleum oils and residues to more valuable clean transportation fuels and in partial conversion of the residues to produce low-sulfur fuel oil and hydrotreated feedstocks.

The Symposium agenda included keynote presentations by ADNOC Refining, ART Hydroprocessing & CLG, Bapco, Honeywell UOP, Nexant, SATORP, Saudi Aramco and Shell Catalysts & Technologies. Other organisations presenting included ENI (Italy), KNPC, KIPIC, Petrobras, Raffineria Di Milazzo (RAM), SK Energy and the leading international licensors and catalyst manufacturers.

Special focus was given at the event to developing and encouraging the next generation of engineers which included interactive sessions at the Youth Booth, Mentorship Sessions and a lively panel debate with seasoned professionals.

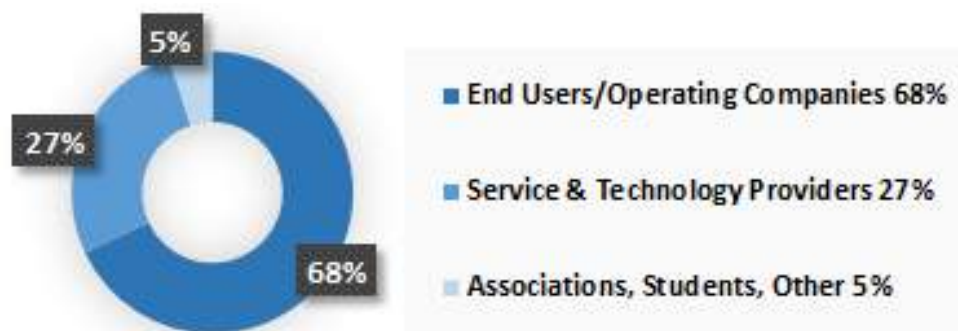

The programme of the event also included Licensor Break-Out sessions and a visit to the Al Zour Refinery - the world's largest ARDS complex in a single site.

END USERS RATIO

ATTENDEES PROFILE

TESTIMONIALS

“The best of the oil industry has gathered in Kuwait to give its contribution for the future and sustainability of refineries. Thanks for having organized such a great event”

KUWAIT PETROLEUM ITALIA

“Knowledge sharing and collaboration between vendors and end users is the gate towards innovative solutions and rapid development. That's not only applicable to oil and gas business but to all aspects”

SAUDI ARAMCO

“Excellent and very useful conference, well organized with all the right people and companies”

BAPCO

“Great attendance/ participation by senior and less senior management and engineers. The Youth Forum was also excellently done with good insights”
